of anti-biotic residue, bacterial inhibitors, heavy metal residue and micro-biological contaminations etc.

(c) While SPS related standards enforced by our trading partners pose initial challenges causing higher costs of compliance, they create opportunities as well.

(d) In order to increase the export of marine products, Government have been taking several steps, which include schemes for extending financial assistance to the seafood processing industry; steps to upgrade processing facilities to meet international standards of hygiene and quality; expansion of aquaculture; imparting training to aquaculture farmers to adopt sound management practices; assistance for production of value-added products for export; and marketing support.

Purchase of defence aircrafts

†761. SHRI P.K. MAHESHWARI:
SHRI KRIPAL PARMAR:
SHRI SURENDRA LATH:

Will the Minister of DEFENCE be pleased to state:

(a) whether to improve combat capacity Government propose to purchase 126 aircrafts, 80 helicopters and refueller aircrafts that refuel in the sky;

(b) if so, the extent of success achieved in this regard;

(c) by when this purchase would be made and whether all-out efforts would be made to bring transparency in this procurement; and

(d) if so, the details thereof so as to maintain transparency?

THE MINISTER OF DEFENCE (SHRI PRANAB MUKHERJEE): (a) and (b) Government constantly reviews the security environment and accordingly decides to induct appropriate equipment and to make other arrangements for adequate defence preparedness. It would not be interest of national security to give further details.

(c) and (d) The purchase of defence aircrafts and helicopters would be made in accordance with the established defence procurement procedure. This procedure envisages a time frame of two to three years for conclusion of contracts in such major purchases. The defence procurement procedure aims to achieve the highest degree of probity and public accountability, transparency in operations, free competition and impartiality.
